## Welcome To Crisis Housing Solutions "Adopt a Hurricane Family"

In reviewing the chart below:  
Our Focus is on the "Family in need".  
Our goal is to help bring them to self-sufficiency

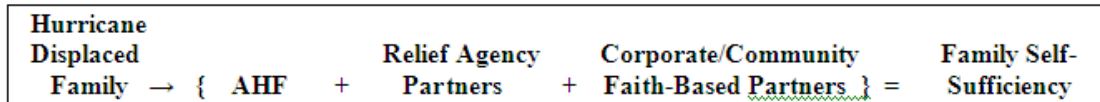

Top left illustrates our organization AHF:

We've established a relationship with all the organizations and agencies we call "Agency Assistance". AHF collaborates with these agencies. The services they provide help us to facilitate the families with what they need now and the assistance we get from the Corporate/Faith Based Sponsors (Top Right) help to bring the families to our goal of self sufficiency.

**Short-Term**

<sup>2021</sup> Positioned in the marketplace as a not-for-profit (501c3) agency providing disaster assistance to South Florida families displaced by Hurricanes Katrina and Wilma.

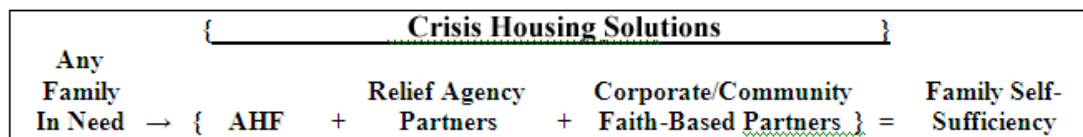

- The nature of this assistance will primarily be housing assistance; temporary housing, at first, with the ultimate objective of restoring the family to self-sufficiency in permanent housing.
- Secondary assistance will also be provided in the areas of job placement, securing food, clothing, essential furniture, childcare & personal hygiene needs, and the like.

**Long-Term**

<sup>2021</sup> Expand the focus to include assistance for any natural disaster that results in families being displaced from their homes (e.g., floods, tornados, wildfires, tsunamis, etc.), the homeless, poor, et al.

<sup>2021</sup> Further, a name change for the organization may also be required as the "Hurricane" component is somewhat limiting and, long-term, understates our mission. Thus we are evolving more towards *Crisis Housing Solutions*, as this will more accurately reflect our intended role.
